

For Immediate Release

Best Restoration Award for Lion House Renovation Given to WDF

Mount Vernon, New York, October, 2008 – WDF Inc., A GreenStar Company and the Number 1 Specialty Contractor in New York, won the Award of Merit given by New York Construction Magazine for the Best Renovation, Restoration project in New York for its work on the Lion House, now called the Madagascar Exhibit.

The Madagascar Exhibit at the Bronx Zoo, 2300 Southern Boulevard, Bronx, New York, was built for the New York City Department of Design and Construction Parks and Recreation.

1

Designated a landmark building and funded by the Wildlife Conservatory, this 50,000 square foot project was completed in three years. This renovation from the Lion House is a “green” building with five sources of heating consisting of geothermal, cogeneration, fuel cell, hot water and steam. All the mechanical fittings were hidden in the natural structures surrounding the exhibit’s settings allowing for a truly authentic display of the regions depicted.

WDF Inc. (founded in 1929) is one of the nation’s leading plumbing, HVAC contracting and specialty general contracting companies. They have joined with Five Star Electric Corporation and Nagelbush Mechanical to form GreenStar Services Corporation as a diversified full service construction company.

WDF Inc. has worked with the nation’s leading owners, general contractors, architects and engineers on many significant construction projects including high rise construction, waste water treatment plants, educational facilities, transportation systems and infrastructure projects. Our projects serve the private and public sector markets.
